

## "Gypsy Rose" All Body Top to Toe

4 USES: EXFOLIATOR, MOISTURISER, CLEANSER & HAIRSCULTOR

**Contains:** Shea butter, Cocoa butter, Calendula infused oil, Pumpkin seed oil, Vanilla Bean essential oil, Vanilla Oleoresin oil and Macrobiotic sea salt. Combination is a soft relaxing Vanilla aroma while cleansing your problem spots and acting as a **light scrub** on your body at the same time as **moisturising**. Leaving your skin feeling supple & nourished longer. **Allow 2 week trial**.

**WILL CHANGE DIFFERENT COLOURS IN JAR, NOT PERFORMANCE.**

**1 FOR ALL OVER YOUR BODY** Using **spatula** scrape out small piece (size of small fingernail) - keep wiping over desired area and **RUB IN FIRMLY**. Amazingly the **oil film** and **shine** will **disappear**, if you apply too thick will take longer to absorb and wasting it.

**FOR FACE** Wipe a small amount as a **thin film** over inside of hands & apply by patting gently. **DON'T RUB** - can repeat if dryer skin.

**2 FOR YOUR LIPS** Simply apply a light film on lips, initially you will feel a slight tingle (the salt acting as a cleanser). Re-apply as you need, leaves a glistening look if not rubbed in.

**3 FOR YOUR FEET** Scrape out piece (size of thumbnail) apply onto soles, heels, toenails and rough spots rubbing in **firmly & vigorously** until absorbed. Wait **few minutes** to feel results, repeat as need.

Can by your choice use **pumicestone** or loofah on tough thick areas - just follow our **initial** instructions, pumicestone area and **re-apply thin film** at end.

**4 HAIR SCULTOR** Will act as a "Hair Sculptor" and will give all **blonde** hair shades including foils a **Honey gold** tone (**temporary** until you shampoo your hair). Style hair **when dry** in usual way and wipe a thin film all over inside of hands. **Use your fingers** as a comb & rake it through to look separated &/or textured (usually not roots). OK for after hair straightening.

**TIPS ON USAGE** - Always have clean hands - **NOT** for eye makeup removal. Use our "rosehip oil" for removal of eye make-up. **Use it sparingly!** A little goes a long way. To utilise "Exfoliating Salt" firmly rub for removal of dead skin on body & feet. Should it absorb into any material - will **STAIN**.

**STORAGE** - The product will **Harden in cooler "WINTER"** temperatures. **"SUMMER"** - Store out of **extreme** heat (ie locked up in hot car) as will melt, to re-harden put in **refrigerator** for a few minutes.

DO NOT do less shakes - won't clean.

IN'S & OUT'S - NO lather on 1st shampoo, this shampoo lifts oil and dirt; 2nd shampoo's lather has a flatter bubble to cleanse deeply with sheen & life.

It is important to shake bottle before use to release sediment which settles on the bottom. DO NOT judge softness of hair until fully dry.

IGNORE feeling of crisp hair when wet.

Always use a wide tooth comb removing tangled ends first, working up from bottom to crown.

Ok on all coloured hair. Can shave with it.

100% PROVEN BIO-DEGRADABLE (A/S4351.5) - Contains: Rainwater, Kombucha culture, Green tea, Papaw leaf, Decyl glucoside (sugars from corn), Rosemary or Lavender essential oil, Apple cider vinegar, Jojoba oil, Olive oil and Apple pectin. pH balanced.

MUST ALLOW 2 WEEKS TRIAL - Improvement in hair condition will be noticeable once previous build-up is removed, allowing hair and scalp to be fully revitalised. No need to shampoo as often.

Initially shampoo will wash loose dandruff flakes from the hair & loosen any dead split hair.

Known to remove yellow in grey hair & green in blondes (from swimming).

HAIR HARD TO COMB OUT? - If roots normal &/or oily but midlengths &/or ends very dry, use our LEAVE-IN CONDITIONER, especially on long, permed and/or coloured hair.
